

Retraflex®

New Generation of Retractable Hose System for central vacuum

The perfect solution for simple and efficient cleaning

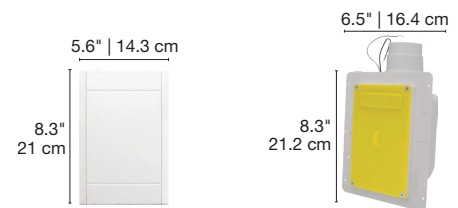

The advantages of the new generation

- 20% smaller and improved
- New on/off function added
- Easier to install during renovations
- More ergonomic

New generation

First generation

How does it work?

To start...

Simply **pull out** the length of hose you need at the moment.

Pull on the black handle to start the system, to lock the hose at the desired length and connect the attachments of your choice.

While the vacuum is running, simply pull on the red switch to turn off the unit. Simply push the switch to restart.

When finished...

Push the handle to unlock the hose.

Disconnect the attachments and **put your hand over the opening** to allow the hose to retract.

Close the door to stop the system.
